

Bob HEITKAMP

for North Dakota Senate **District 25**

PROVEN EXPERIENCE. LOCAL LEADERSHIP. FORWARD

A lifetime of building businesses, helping people, and serving our community. Your neighbor, ready to represent District 25 with experienced leadership and a strong voice for local families, farms, and small towns.

PLATFORM PILLARS

COMMUNITY LEADERSHIP. RESPONSIBLE GOVERNMENT

Families, farmers, homeowners, and local businesses all feel the pressure when costs keep rising. Bob will support efforts that ease the strain on working families and retirees without shifting that burden onto local businesses or weakening the services communities depend on. The state government should respect taxpayers, spend carefully, and focus on the services people count on every day.

AGRICULTURE AND RURAL COMMUNITIES

Bob will stand up for family farmers and ranchers, support agriculture, protect the infrastructure needed to move products to market, and make sure rural voices are heard in Bismarck. He knows rural communities need steady advocacy and practical results.

BUSINESS AND LOCAL JOBS

Bob has spent his life in business, so he understands what it means to meet payroll, manage costs, serve customers, and keep going when margins are tight.

He will support policies that help small businesses grow, reduce unnecessary burdens, strengthen the local workforce, and support the manufacturers and agricultural employers that keep this region moving.

INFRASTRUCTURE AND ESSENTIAL SERVICES

Bob believes District 25 deserves fair investment and long-term planning for the services communities depend on every day. He supports safe, well-maintained roads and bridges, dependable utilities, expanded broadband, rural health care, emergency response, and other essential services that keep farms, families, seniors, workers, schools, and local businesses connected and secure.

Strong communities need reliable physical and digital infrastructure, access to care, and the basic services that help people live, work, and thrive close to home.

SCHOOLS, OPPORTUNITY AND THE NEXT GENERATION

Bob believes District 25 grows when young people can see a future here, when employers can find workers, and when families can afford to build a life and stay.

He supports strong schools, workforce development, job training, housing growth, child care support, and practical policies that help communities recruit and retain the people they need.

Bob brings a business mindset, a community heart, and a clear commitment to leadership that moves District 25 forward.
